Allowable Subject Matter

Claims 1 – 8 and 28 – 50 are allowed. The following is an examiner's statement of reasons for allowance: The closest prior art references of Kageyama (U.S. 2002/0079617), Michellon (U.S. 60,94,890) and Johansen (U.S. 4,048,781 and U.S. 3,964,237) fail to teach conveyor elements for containing the pellet while the entire top and bottom faces of the pellet remain unobstructed, as claimed in claim 1. The references above teach conveyor elements either with a flange or a groove wherein the pellet rests on the flange or snaps into the groove, such that a portion of the pellet face (whether top or bottom) is contacted, and thus, is obstructed. Therefore, prior art fails to teach or suggest, an installation for manufacturing objects such as receptacles by thermoforming pellets of thermoplastic material having top and bottom faces, said installation including conveyor means for conveying the pellets through stations in the installation, including a heating station for heating said pellets, which station includes bottom heater means and top heater means and a thermoforming station for plastically deforming the heated pellets by stretching said pellets, the conveyor means comprising conveyor elements defining cells, which are open upwards and downwards, and each of which is suitable for containing one pellet while the entire top and bottom faces of the pellet remain unobstructed, means for depositing the pellets in the cells, drive means for driving the conveyor elements through the heating station between the bottom heater means and the top heater means and transfer means for transferring the heated pellets. to the thermoforming station, and in the bottom heater means cooperating with a

support for the pellets while said conveyor elements are being driven through the

heating station.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
